# Transdisciplinarity: the future of research?

Victoria Tischler

Professor of Arts and Health/Head of  
Dementia Care

# Overview

- Why transdisciplinarity?
- The trajectory
- Highlights
- The vision

# Piaget (1972)

*'Higher stage succeeding interdisciplinary relationships...which would not only cover interactions or reciprocities between specialised research projects, but would place these relationships within a total system, without any firm boundaries between disciplines'*

# Transdisciplinarity

*Complex problems need creative solutions*

- Transcending traditional academic traditions
- Unity of knowledge – holism- between/across/beyond
- Multiple levels of reality
- Requires: knowledge, moderation, mediation, association & transfer
- Inclusion of stakeholders

Tempelhoff (2014)

# Characteristics of a transdisciplinary scholar

- *'...abilities to think in a complex, interlinked manner, & acknowledge the pain inherent in abandoning one's intellectual comfort zone by working outside one's home discipline, & engaging in new modes of thinking & taking action'* (Augsburg, 2014)
